# Exploration of the TI AM5728 EVM Audio/Video Subsystem

Faculty of Applied Engineering - Electronics - ICT

University of Antwerp

Dennis Joosens

Universiteit Antwerpen

Agenda

- Research question

- Audio latency

- Network latency

- Audio coding: Opus

- Video latency

- Future work

- Conclusion

- Q & A

Research question

Research Question

How can we keep the end-to-end latency of a TI AM5728 based system beneath 25 ms?

Situation

- tba

Audio latency

Title

- tba

Network latency
